Designations held by Investment Advisor Representatives of Pioneer Wealth Management Group are as follows:

Certified Public Accountant (CPA)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. To maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous *Code of Professional Conduct* which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services.

Certified Financial Planner (CFP®)

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and several other countries for its (1) high standard of professional education, (2) stringent code of conduct and standards of practice and (3) ethical requirements that govern professional engagements with clients.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

1. Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary.
2. Examination – Pass the comprehensive CFP® Certification Examination, a 6-hour exam.
3. Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year).
4. Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to maintain the right to continue to use the CFP® marks:

1. Continuing Education – Complete 30 hours of continuing education hours every two years.
2. Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Chartered Financial Analyst (CFA)

The Chartered Financial Analyst (CFA) charter is a professional designation established in 1962 and awarded by CFA Institute. To earn the CFA charter, candidates must pass three sequential, six-hour examinations over two to four years. The three levels of the CFA program test a wide range of investment topics, including ethical and professional standards, fixed-income analysis, alternative and derivative investments, and portfolio management and wealth planning. In addition, CFA charterholders must have at least four years of acceptable professional experience in the investment decision-making process and must commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

Chartered Financial Consultant® (ChFC)

The Chartered Financial Consultant® (ChFC) designation program focuses on the comprehensive financial planning process as an organized way to collect and analyze information on a client's total financial situation; to identify and establish specific financial goals; and to formulate, implement, and monitor a comprehensive plan to achieve those goals.

The ChFC program provides financial planners and others in the financial services industry with in-depth knowledge of the skills needed to perform comprehensive financial planning for their clients.

To earn this designation, an eight-course examination must be passed. Designations are usually attained within 15-24 months. Three years of business experience immediately preceding the date of use of the designation is required. Each designee must also complete 30 hours of continuing education every two years.

Enrolled Agent

An enrolled agent has earned the privilege of representing taxpayers before the Internal Revenue Service by either passing a three-part comprehensive IRS test covering individual and business tax returns, or through experience as a former IRS employee. Enrolled agent status is the highest credential the IRS awards. Individuals who obtain this elite status must adhere to ethical standards and complete 72 hours of continuing education courses every three years.

Personal Financial Specialist (PFS)

The PFS credential demonstrates that an individual has met the minimum education, experience and testing required of a CPA in addition to a minimum level of expertise in personal financial planning. To attain the PFS credential, a candidate must hold an unrevoked CPA license, fulfill 3,000 hours of personal financial planning business experience, complete 80 hours of personal financial planning CPE credits, pass a comprehensive financial planning exam and be an active member of the AICPA. A PFS credential holder is required to adhere to AICPA's *Code of Professional Conduct* and is encouraged to follow AICPA's *Statement on Responsibilities in Financial Planning Practice*. To maintain their PFS credential, the recipient must complete 60 hours of financial planning CPE credits every three years. The PFS credential is administered through the AICPA.
